# Brandon Hire offers a Nationwide Toilet Hire service suitable for every requirement

Our portable toilets are available in a wide range of sizes and layouts. From combined male/female toilet blocks to specially designed disabled persons' toilets. All delivered to your site fully plumbed and fitted out. This is backed with a delivery, collection and cleaning service to fit in with the most demanding of timetables.

Health and Safety regulations governing construction sites state that there is a legal responsibility of any person in control of a building site to provide suitable toilet and washing facilities. It is recommended that one toilet is provided for every ten people per forty hour week, see matrix below.

Before hiring, please consider the following advice:

- Our vehicles must get within 10m to service the unit
- A level site is strongly recommended
- Allow adequate space for doors to open
- Consider wheelchair access
- Ensure the unit is not an obstacle

Orders must be placed before 12 noon for guaranteed next day delivery.

## Toilet Calculator

Max People	Hours Usage				
	2	4	6	8	10
1 – 7	1	1	1	2	2
8 – 14	2	2	2	3	3
15 – 21	3	3	3	4	4
22 – 28	4	4	4	5	5

## Standard Toilet

This is one of the most popular portable toilets we hire and is ideal for building/construction sites as it can be used by both male and female employees. All units come fitted with a recycling flush system, a wash basin, fixed soap dispenser and toilet roll holder.

## Disabled Toilet

These specially adapted, portable toilets are suitable for customers who require a larger portable rest room. The units come equipped with a shallow incline ramp and generous door width, enabling ease of access for wheelchair users. Interior full-width handrails are provided as standard, with plenty of room for an attendant if required.

- Access ramp provided as standard
- Unit comes complete with a baby changing unit
